

“HOW TO” OPEN SHIFT

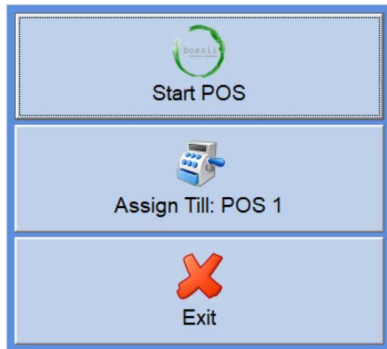

BOSSII OPENING PROCEDURES

STEP 1

BOSSII POS

Double click the “POS Launch” shortcut on the desktop of the POS terminal

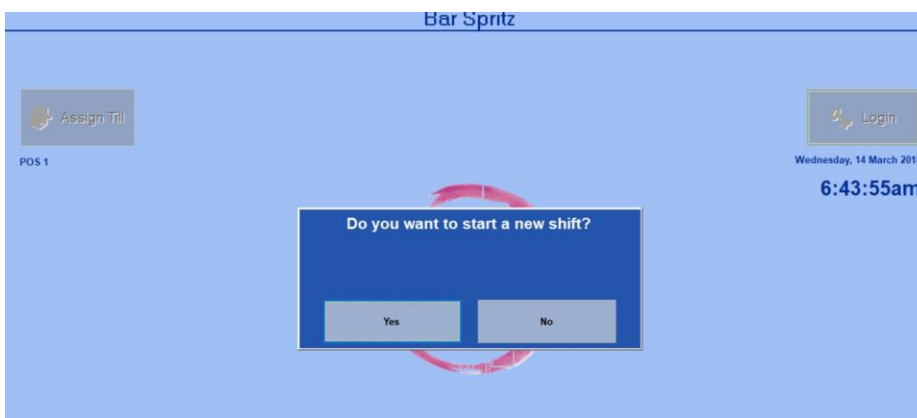

Choose {START POS}

Choose {LOGIN} on the POS Home Screen

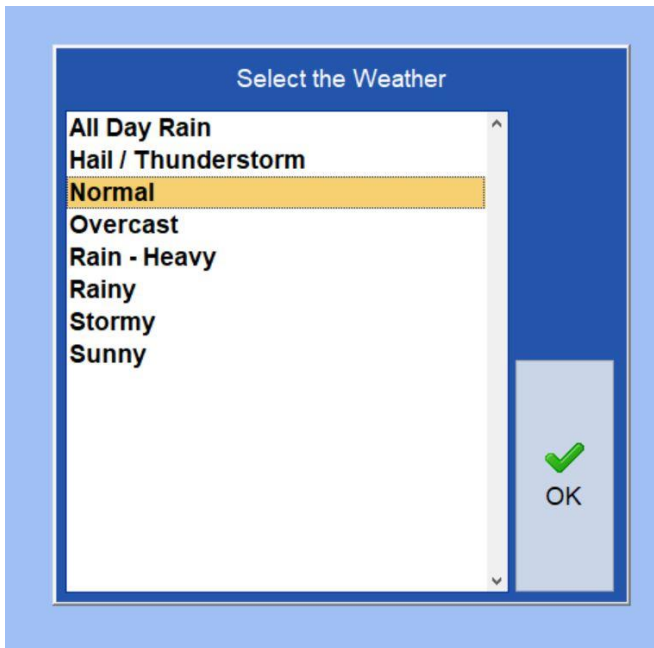

Open a New Shift

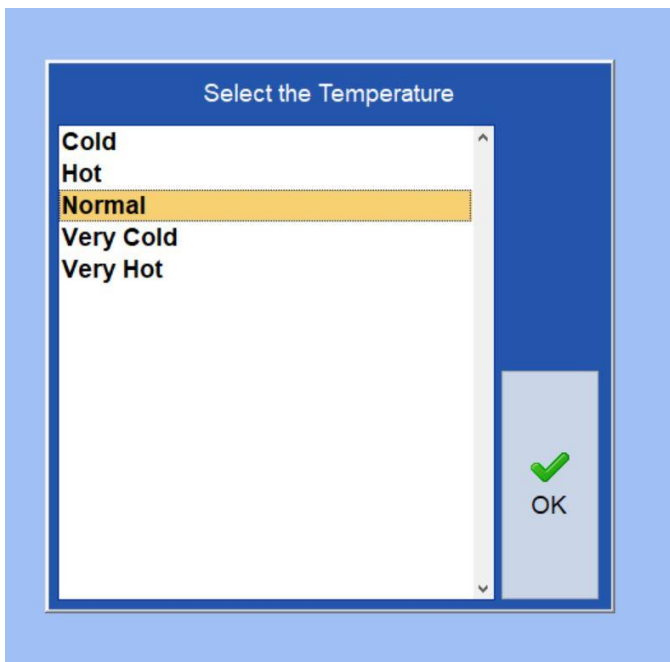

Choose a Weather condition

Choose a Temperature condition

The POS terminal will now be ready for use

Go to the iPads

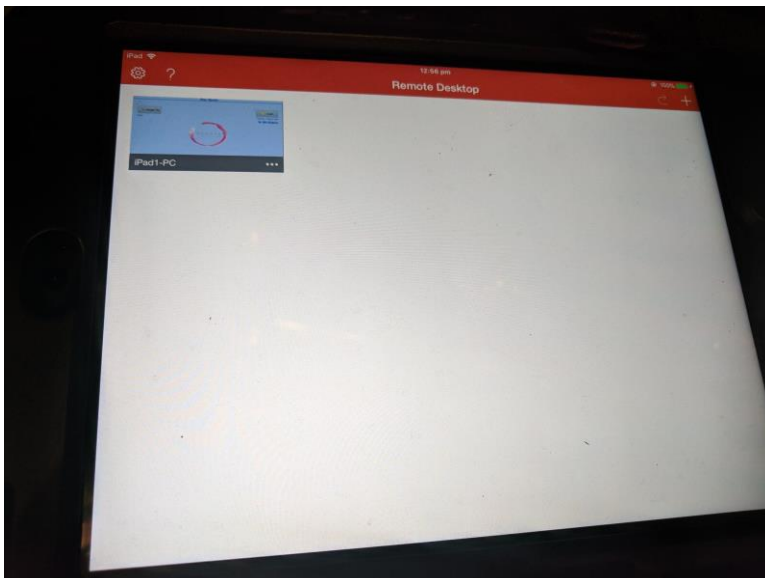

There are 3 screens that the iPad may have been left on overnight

1. iPad home screen (best practice)

This is the iPad home screen – to use bossii choose the Red Desktop connection app on the bottom of the screen

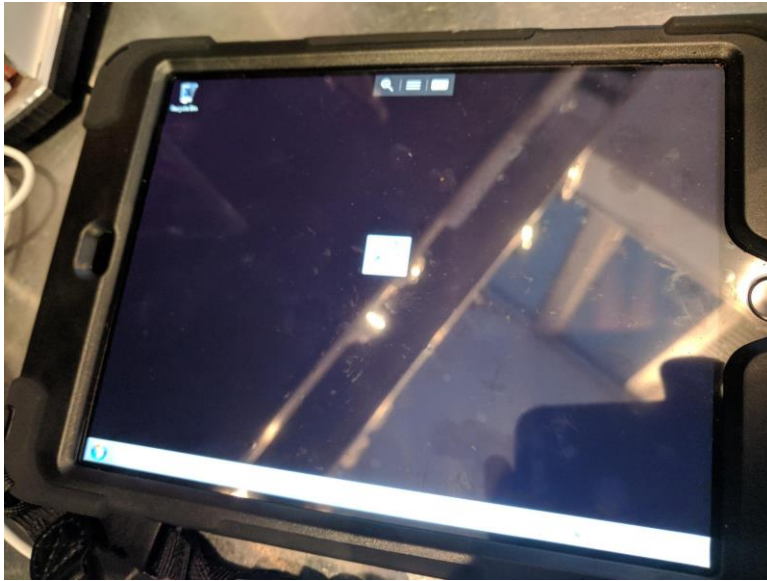

2. Or the App Screen

This is the App Screen – to use bossii choose the picture image in the top left hand corner

3. Or the Logged in screen

This screen shows that the iPad is connected to the network PC already
To use bossii simply double click the bossii shortcut to open the POS
